References to published accounts of similar works and monographs on any branch of the subject will be thankfully accepted. Special researches made for this committee will be received with appropriate acknowledgments. The Department of Physics and of Chemistry in the various colleges and universities will probably be able to render valuable aid, and their co-operation is earnestly requested. The Schools of Engineering are in a position to assist this committee very effectively and their contributions will be thankfully accepted. Suitable blanks upon which to record the data offered, will be furnished upon application. Specimens of alloys for test by the committee must be accompanied by a statement upon these blanks of their precise constitution, and such information as it is possible to give, with an account of such peculiarities as are known to distinguish the alloy, and of the special object which it is supposed may be attained by the investigation. Where possible, it is required that one or more specimens shall be furnished of each of the specified kinds, and of precisely the form and dimensions, which will be given on application. R. H. Thurston, Chm. of Com, on Metallic Alloys. VI. At a meeting of the U. S. Board, appointed to test Iron, Steel and other metals, held at Watertown Arsenal, June 2d, 1875,...
