## PRACTICAL PLANT BIOCHEMISTRY (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Practical Plant Biochemistry This book is intended primarily for students of Botany. Such a student's knowledge of plant products is usually obtained, on the one hand, from Organic Chemistry, on the other hand, from Plant Physiology; between these two standpoints there is a gap, which, it is hoped, the following pages may help to fill. It is essentially a text-book for practical work, an aspect of Plant Biochemistry which has received up to the present time very little consideration in teaching. A number of experiments have been devised and have been actually tested in practical classes. These experiments should enable a student to extract from the plant itself the chemical compounds of which it is constituted, and to learn something of their properties. An elementary knowledge of Organic Chemistry on the part of the student has been assumed, as it appeared superfluous to incorporate the material which has already been so amply presented in innumerable text-books. My sincerest thanks are due to Dr F. F. Blackman, F.R.S., for criticism and many suggestions throughout the writing of the book. I am further indebted to Mr H. Raistrick, M.A., for help in various ways, especially in reading the proof-sheets. I wish, in addition, to express my gratitude to Professor F. G. Hopkins, F.R.S., for the great interest he has always shown in the subject and for his kind and stimulating advice in connexion with the scheme of teaching presented in the following pages. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
